

CROWBARS & FENCE BARS

Forged Carbon Manganese Steel

*Longer, Sharper,
Heat Treated Ends
for Superior Performance*

MUMME TOOLS
QUALITY FORGED HAND TOOLS

Longer, sharper, heat treated ends for superior performance

Crowbars & Fence Bars – Forged Carbon Manganese Steel

- Forged from tough, high tensile carbon manganese steel
- **Crowbars** feature ground & sharpened diamond point ends for easier digging, especially in abrasive soil like rocky ground which tends to self-sharpen the tool
- **Fence bar** knobs are forged, not welded, and made to optimum size for tamping
- Hexagon bar profile provides greater control
- Round bar profile is easier on the hands for greater comfort

INDUSTRIES:

Mining • Construction • Agriculture • Utilities

Crowbars provide superior performance when digging holes or breaking clay, rock and concrete.

5CBR180030

Fence Bars are used for fencing including digging holes, breaking clay and tamping posts tight.
